

The Management of EUROFIRMS GROUP SLU defines the Policy that governs the aspects of our Management System, **drawn up according to the Standards ISO9001, OHSAS 18001 and SGE21**, and covering all the Company's services. This policy is underpinned by the following commitments to action:

- To seek out and maintain satisfaction on the part of our clients and other interested parties, by providing positive solutions to their varying Human Resources needs and by complying with the requirements related to the applicable SSO hazards as specified and agreed upon for projects and work assigned to us.
- To develop, implement and maintain a management system based on strict compliance with laws, regulations and national and international standards applicable to the company and to the projects and work that we perform.
- To promote and maintain continuous improvement of the integrated Management System, its processes and performance, based on findings from audits, the analysis of statistics and data, corrective and preventive actions and other sources of improvement. The team of people that make up EUROFIRMS is committed to the ongoing improvement of our actions, and we share a code of values that we apply to our daily activities: Transparency, Responsibility and Respect.
- To foster an open and inclusive company culture, committed to ethical and socially responsible management, where all of us must be willing to carry out positive and innovative actions.
- To identify the hazards and risks present in all our activities and work areas, and to communicate them to our staff, together with the corresponding prevention and control measures, with the aim of eliminating or minimising workplace accidents, injuries and illnesses.
- To protect the health and well-being of our staff by providing them with a safe, secure and healthy environment and working conditions in accordance with applicable laws.
- To draw up educational, training and awareness plans for our staff regarding the obligations and responsibilities inherent to workplace health and safety, and to make them participants in the system and monitoring process, to ensure that these SSO policies remain effective .

We want EUROFIRMS to be a benchmark company within its sector, with wide-reaching geographical scope, high quality service, an excellent image as a supplier to our clients, and providing the opportunity for our employees and collaborators to advance and progress.
